

Social Media Information

LinkedIn is a network of experienced professionals from around the world. When you join, you create a profile that summarizes your professional expertise and accomplishments. You can find, be introduced to, and collaborate with qualified professionals that you need to work with to accomplish your goals.

Twitter is a real-time short messaging service that works over multiple networks and devices. All around the world, people follow the sources most relevant to them and access information via Twitter as it happens—from breaking world news to updates from friends. By accepting messages from web, mobile web, or from instant messaging, Twitter makes it easy for folks to stay connected.

About Axiom Information

Axiom is a software provider of industry-specific business solutions for Architectural and Engineering firms. Axiom's products provide integrated accounting, project management, and business development capabilities in a single solution with a full-range of support services to ensure your firm gets the maximum results.

As an Axiom client, you receive direct access to expert technical resources; implementation services, consulting, training, and a knowledgebase full of solutions to maximize the benefits of your Axiom software investment.

Axiom has 25 years of experience in the Architectural and Engineering industry providing you comprehensive, integrated solutions to manage your firm the same way you handle business — project by project. Axiom moves beyond generic accounting products to provide a range of business management solutions to improve productivity and increase profitability.
